

Task-4

Part-A: Professional Email Drafts

Email 1: Requesting an Extension (Student to Professor)

From: swattik.cse2025@vitbhopal.ac.in

To: professor.cse@vitbhopal.ac.in

Date: March 30, 2026

Subject: Extension Request: C++ Assignment - Swattik

Dear Professor,

I hope you are doing well.

I am writing to respectfully request an extension on the **C++** assignment, which is currently due on March 31, 2026.

Due to an unexpected technical issue with my local development environment and a sudden bout of seasonal flu, I have fallen slightly behind my planned schedule. I am very committed to submitting high-quality work that reflects my understanding of the course, and a brief extension would allow me to ensure the assignment meets those standards.

If possible, would it be acceptable to submit my assignment by **April 2, 2026, at 5:00 PM**? I have attached my progress and the initial architecture diagrams to show that the foundation of the work is complete.

Thank you for your time and for considering my request.

Best regards, Swattik 25BCE10457

Email 2: Expressing Interest in an Internship (Student to Coordinator)

From: swattik.cse2025@vitbhopal.ac.in

To: hr.internships@techcorp.com

Date: March 30, 2026

Subject: Application for Summer Internship: Software Development - Swattik

Dear Internship Programs Team,

I hope this email finds you well.

My name is Swattik, and I am a first-year **B.Tech Computer Science and Engineering** student at **VIT Bhopal University**.

I am writing to formally express my interest in a summer internship opportunity with your Software Engineering team.

I have been following your company's recent advancements in serverless architecture and scalable cloud solutions. With my background in C++ coding and my current focus on cloud deployment strategies, I am eager to contribute to your team while gaining hands-on experience in a professional environment.

I have attached my resume and GitHub portfolio for your review. I would welcome the opportunity to discuss how my skills and academic background could support your upcoming summer projects.

Thank you for your time and consideration.

Best regards, Student ID: 25BCE10457

Part-B: Social Media Responsibility Checklist

Do's	Don'ts
Audit your privacy settings regularly to know who can see your personal posts.	Post confidential information like student ID, home address, or private project details.
Use a professional profile picture and clear bio on LinkedIn to build a positive brand.	Engage in "cyber-venting" or posting complaints about professors, peers, or staff.
Verify information before sharing to prevent the spread of "fake news."	Plagiarize or share copyrighted material without proper attribution.
Network with industry professionals and alumni in relevant tech groups.	Post content depicting illegal activities or university policy violations.

Think before you tag others; respect the privacy of your friends and classmates.

Assume that "deleted" content is permanently gone from the internet.
